## PREFACE.

---

As an experienced teacher, I have long felt the need of a good question book on American History. In preparing this work I have aimed to make every question a practical question, and one that requires a short and concise answer. The book consists of about one thousand questions with complete answers; each bound under a separate cover, thus making the book complete within itself or so that it may be used in connection with any standard text-book on American History. It will be found a very efficient work for rapid review in preparation for Regents' Examinations.
